

## COME TO ME

When your blue walls have grown high as into a fortress  
And just hanging on is going to take all of your resources  
And you can't make any sense of the voices that are in your head  
No matter what they say

Come on darling, come home, come to me  
Come on darling, come home, come to me

When you're lost and adrift out on this ocean  
And you're sea sick and tired of this directionless motion  
And the street boys, they don't make much of a commotion anymore  
When you walk the dog

Come on darling, come home, come to me  
Come on darling, come home, come to me

### *Instrumental*

Come on darling, come home, come to me  
Come on darling, come home, come to me

So listen to me now as into your ear I softly whisper  
No enemies remain, there's just you and I and we're the victors  
And if this isn't so plain, then please just focus on the picture I'm painting in your head  
And what it says is

Come on darling, come home, come to me  
Come on darling, come home, come to me

Come on darling, come home, come to me  
Come on darling, come home, come to me
